Re: Notice of SCE's Filing of Two Separate Applications that
Change Electric Rates

To Whom It May Concern:

On January 17, 2017, and January 20, 2017, respectively, Southern California Edison Company (SCE) filed **two** separate applications with the California Public Utilities Commission (CPUC) for approval to change customer electric rates. The CPUC has assigned Docket Numbers A. 17-01-018 and A.17-01-021 to the applications.

The filings are described in general terms in the enclosed notice that is also being published in a newspaper of general circulation in every county within SCE's service territory, as well as included as a bill notice provided to every SCE customer. To obtain more detailed information, you may view or download a copy of SCE's filing and supporting testimony on our website, at <http://on.sce.com/2cdyUm1>. You may also request a printed copy of these documents from SCE at the address listed in the enclosed notice.

Very truly yours,

/s/ Andrea Tozer

**NOTICE OF SOUTHERN CALIFORNIA EDISON COMPANY'S FILING
OF TWO SEPARATE APPLICATIONS THAT CHANGE ELECTRIC
RATES,**

**APPLICATION 17-01-018
AND
APPLICATION 17-01-021**

SUMMARY

On January 17, 2017, and January 20, 2017, respectively, Southern California Edison Company (SCE) filed **two** separate applications with the California Public Utilities Commission (CPUC) for approval to change customer electric rates.

**1. APPLICATION FOR APPROVAL OF DEMAND RESPONSE PROGRAMS FOR 2018
– 2022 (A.17-01-018)**

On January 17, 2017, SCE filed an application with the CPUC requesting approval of SCE's demand response programs for program years 2018 through 2022. This application is requesting an overall **decrease** in revenues collected from SCE's customers related to demand response programs, when compared to current funding authorized for demand response programs in 2017.

SCE offers a variety of demand response programs to qualifying customers. Demand response programs increase electric reliability and can reduce SCE's total power purchase costs by incentivizing electric customers to reduce electric usage during periods of relatively high demand or high prices. Demand response programs also provide options for customers to control their energy bills.

In Application 17-01-018, SCE is requesting CPUC approval to continue its demand response programs over the 2018 – 2022 period, and to collect electric revenues of \$183 million, or approximately \$36.6 million per year, over this five-year period to fund these programs. If approved, SCE's request would result in a revenue requirement **decrease** of approximately \$13 million, or approximately 31%, in average annual funding for 2018 through 2022 compared to the funding currently authorized for SCE's 2017 demand response programs.

If the CPUC approves SCE’s application as proposed, an average non-CARE residential customer using 550 kWh per month could see a monthly bill decrease of \$0.13, from a current monthly bill of \$107.30 to \$107.17. The following table compares SCE’s current bundled average rates, by customer group, to proposed bundled average rates in 2018:

Customer Group	System Revenues (\$000)			Bundled (¢/kWh)		
	Current Revenues (\$000)	Proposed Revenue Change (\$000)	% Change over Current	Current Rates (¢/kWh)	Proposed Rates (¢/kWh)	% Change over current
Residential	4,917,589	-6,469	-0.1%	17.76	17.74	-0.1%
Lighting - Small and Medium Power	4,419,380	-4,658	-0.1%	16.84	16.83	-0.1%
Large Power	1,977,952	-1,834	-0.1%	11.91	11.90	-0.1%
Agricultural and Pumping	412,602	-428	-0.1%	12.71	12.69	-0.1%
Street and Area Lighting	132,948	-42	0.0%	18.05	18.05	0.0%
Standby	275,239	-237	-0.1%	9.61	9.60	-0.1%
Total	12,135,710	-13,670	-0.1%	15.83	15.81	-0.1%

2. 2017 TRANSPORTATION ELECTRIFICATION PROPOSALS APPLICATION (A.17-01-021)

On January 20, 2017, SCE filed an application with the CPUC requesting approval to increase rates to fund projects and programs that will help increase the use of electric transportation.

This request was made after the CPUC issued a ruling directing SCE to file a transportation electrification application, as mandated by Senate Bill (SB) 350. SB 350 orders the CPUC to direct electrical corporations to file applications for programs and investments to accelerate widespread transportation electrification. These projects and programs will help California reduce dependence on petroleum, meet air quality standards, achieve the goals set forth in the Charge Ahead California Initiative, and reduce emissions of greenhouse gases.

SCE’s transportation electrification portfolio includes three pilot projects aimed at accelerating light-duty electric vehicle (EV) adoption, two pilot projects to promote electrification at the Port of Long Beach, one pilot to accelerate electric bus adoption at transit agencies, one EV rate proposal to incentivize EV adoption, and one standard-review program providing charging infrastructure for non-light-duty EVs. The total costs of the proposed projects and programs are approximately \$573 million in today’s dollars over the five-year program period. If the CPUC approves this application in its entirety in 2018, the following shows potential spending per year.

Breakdown of Transportation Electrification Spending						
	2019	2020	2021	2022	2023	5 year Total
Total Amount per Year	102,740	93,811	101,342	123,111	152,265	573,269

*Amount expressed in thousands

SCE’s plan to advance transportation electrification as set forth in its application is a crucial step toward achieving high levels of electric vehicle adoption as quickly and affordably as possible to support California’s environmental goals.

Customer rates will not be affected until the CPUC approves all or a portion of this application. If this application is fully approved in 2018, customer rates would not be affected until 2019.

This would result in an estimated average increase of 0.4% over the five-year program period from 2019 through 2023.

The following table is representative of the estimated rate increase by customer group if this application is approved by the CPUC.

Customer Group	System Revenues (\$000)			Bundled (¢/kWh)		
	Current Revenues (\$000)	Proposed Revenue Increase (\$000)	% Increase over Current	Current Rates (¢/kWh)	Proposed Rates (¢/kWh)	% Increase over Current
Residential	4,917,589	23,307	0.5%	17.8	17.8	0.5%
Lighting - Small and Medium Power	4,419,380	15,639	0.4%	16.8	16.9	0.3%
Large Power	1,977,952	5,533	0.3%	11.9	11.9	0.2%
Agricultural and Pumping	412,602	1,326	0.3%	12.7	12.7	0.3%
Street and Area Lighting	132,948	84	0.1%	18.1	18.1	0.1%
Standby	275,239	570	0.2%	9.6	9.6	0.2%
Total	12,135,710	46,459	0.4%	15.8	15.9	0.4%

FOR FURTHER INFORMATION ABOUT SCE’S APPLICATION

You may review a copy of SCE’s applications and related exhibits at SCE’s corporate headquarters (2244 Walnut Grove Avenue, Rosemead, CA 91770).

Customers with Internet access may view and download SCE’s applications and related exhibits on SCE’s website at <http://on.sce.com/2k8cmrP> (for A.17-01-018) and <http://on.sce.com/2jW15IX> for A.17-01-021, or by visiting www.sce.com/applications, typing “A.17-01-018” or “A.17-01-021” into the Search box, and clicking “Go.” If you have technical issues accessing the documents through the website, please e-mail case.admin@sce.com for assistance (be sure to reference proceeding A.17-01-018 or A.17-01-021 in your e-mail).

To request a hard copy of SCE’s applications and related exhibits, or to obtain more information about these applications from SCE, please write to:

In addition, a copy of this application may be reviewed at the CPUC’s Central Files Office, located in San Francisco, CA, by appointment. For more information, please contact the CPUC at aljcentralfilesid@cpuc.ca.gov or (415) 703-2045.

CPUC PROCESS

These applications will be assigned to an Administrative Law Judge(s) (Judge(s)) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decisions. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by

other parties. These EHs are open to the public, but only those who are parties of record can participate.

After considering all proposals and evidence presented during the formal hearing processes, the assigned Judge(s) will issue proposed decisions which may adopt SCE's applications as proposed, modify them, or deny them. Any CPUC Commissioner may sponsor alternate decisions. The proposed decisions, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review these applications on behalf of SCE's ratepayers. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at www.ora.ca.gov/.

STAY INFORMED

If you would like to follow these proceedings, or any other issue before the CPUC, you may use the CPUC's free subscription service. Sign up at: <http://subscribecpuc.cpuc.ca.gov/>.

If you would like to learn how you can participate in these proceedings, provide public comments, or if you have questions about any CPUC processes, you may access the CPUC's Public Advisor's Office (PAO) webpage at www.cpuc.ca.gov/pao/. You may also contact the PAO as follows:

Phone: 1-866-849-8390 (toll-free) or 1-415-703-2074
TTY 1-866-836-7825 (toll-free) or 1-415-703-5282

Or write to: CPUC
Public Advisor's Office
