Dear City Manager Martinez,

U-verse Programming Changes

AT&T's contracts with programmers for the content displayed on U-verse TV[®] service periodically expire, or may be terminated, but are usually re-negotiated or extended with no interruption or change for our U-verse members. Additionally, from time to time it is necessary to change channel line-ups as well as television package contents. The programming changes set forth below may occur as follows:

February 2018:

As previously noticed, AT&T's contracts with the programmers for the following channels are set to expire. While these channels will continue to be available to U-verse members so long as AT&T has the rights to carry them, if reasonable agreements cannot be reached with the programmers, the programming will no longer be available. AT&T may modify the channel locations for the programming by moving them from their current channel locations to channels between 9501 – 9599, and if reasonable longer term agreements cannot be reached with the programmers, we may lose the rights to carry them (listed in alphabetical order) in or after February 2018: Ovation (channel 385 and 1385 in HD), Stingray Karaoke (channel 96 and 1096 in HD), and Stingray Music (channel 500, 531 and 1500, 1531 in HD).

March 2018:

As previously noticed, AT&T's contracts with the programmers for the following channels are set to expire. While these channels will continue to be available to U-verse members so long as AT&T has the rights to carry them, if reasonable agreements cannot be reached with the programmers, the programming will no longer be available. AT&T may modify the channel locations for the programming by moving them from their current channel locations to channels between 9501 – 9599, and if reasonable longer term agreements cannot be reached with the programmers, we may lose the rights to carry them (listed in alphabetical order) in or after March 2018: Havoc TV HD (channel 1490 in HD), MegaTV (channel 3008 in HD), SNY HD (channel 1704 in HD), U-verse Shopping Multiview application (channel 412 and 1412 in HD), U-verse Paquete Espanol application (channel 3001); and World Fishing Network HD (channel 1679 in HD).

And the following channel:

Newsy (channel 175 and 1175 in HD).

April 2018:

AT&T's contracts with the programmers for the following channels are set to expire. While these channels will continue to be available to U-verse members so long as AT&T has the rights to carry them, if reasonable agreements cannot be reached with the programmers, the programming will no longer be available. Customers will be provided with written notification of the above: customer bills include a message referring them to the Legal Notices in USA Today on the first and third Tuesday of each month, and to the AT&T website att.com/u-verseprogrammingchanges, for information on programming changes.
