

Construction and Demolition Debris Removal

The City of Lynwood has an Exclusive Franchise Agreement with Waste Resources to collect all solid waste generated within city limits. For construction and/or renovation projects, this means that all contractors, sub-contractors, business owners, and residents that are going to rent or contract for temporary hauling services, **must** hire Waste Resources to perform this service¹. Waste Resources will deliver the material to a recycling facility in order to assist with recycling mandates and local ordinances.

Bins are available in the following sizes:

One-Time or Temporary Service²

3 cubic yard

Price for temporary service is based on number of pickups per week.

10, 15, 25, and 40 cubic yards

Price includes service + dump fee and may include demurrage charges for bins that are not serviced regularly.

For contractors with their own bins, we encourage them to deliver all construction and demolition debris to a recycling facility for processing. A list of local facilities can be found at:

<http://ladpw.org/epd/brtap/recyclingsite/results.cfm?search=construction>.

¹ The only exception is for self-hauling or when a prime general contractor owns their own bin and the debris is hauled by employees of the prime contractor

² Prices quoted will include all City taxes and fees.
